JESSIE CLIFTON CONVICTED BY

JURY OF BURGLARY.

Mother and Daughter Collapse as

Verdict Is Read and Are Carried

from Courtroom—Nineteen-Year-

Old Girl Declared to Be Member

of Notorious Shea Gang.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO BUREAU OF

THE TIMES, May 13.—[Exclusive

Dispatch.] Jessie Clifton, the 19-

year-old art student, accused of partici-

pating with members of the no-

torious Shea gang of men and women

burglars in their crimes, this morn-

ing was convicted of burglary by a

jury in Department Six, of the Su-

preior Court.

As the verdict of the jury was read,

Miss Clifton and her mother, who sat

at her side, screamed and collapsed.

They were carried from the court-

room in a hysterical condition, and

it was some time before they had re-

sisted their composure.

After the jury had been excused,

Superior Judge J. J. Trabucco sit-

ting for Judge Frank H. Dunne, set

next Saturday morning as the time

for sentence.

The case of the pretty art student,

accused with complicity with the

gang of school burglars, has

caused unusual interest in San Fran-

cisco since her arrest nearly two

months ago.

Her arrest followed a raid on the

rendevous of the Shea gang at No.

734 Stanyan street, where the police

found rooms occupied by the thieves

filled with stolen goods.

It was charged that among other

crimes which have been laid to the

pair of the thieves at first failed to

excite the girl and she took her im-

prisonment calmly and with no ap-

parent seriousness. She declared

that she is innocent of the crime

charged to her and said that she had

been invited by Mrs. Shea, consort of

Patrick Shea, to spend a few weeks

with her at the Stanyan-street apart-

ments.

The girl formerly was a student of

the University of the Pacific at San

Jose, and was well known in the Gar-

den City, having participated there in

many social affairs.

She spent her time in jail sketch-

ing scenes about the prison and in

making pen and ink drawings of fel-

low-prisoners.

OFFERED AN ALIBI.

She was brought to trial yesterday

before Judge Trabucco. As a de-

fense, she sought to establish an alibi,

asserting that on the night of March

14, when the Cherry burglary took

place, she was at home. This was

corroborated on the witness stand by

Maudie Shea and by James Bemon, a

young man, who testified that he had

called on the girl the night that

was supposed to have participated in

the burglary.

The case was given to the jury this

morning, and the verdict of guilty

came after an hour of deliberation.

Mrs. Lou Clifton, mother of the

girl, had been in constant attendance

in the courtroom since the trial be-

gan.

CRITICISE COST OF RECLAMATION

James J. Hill Tells Lane He Is Paying Too Much.

Believes Government Should Abandon the Business.

Says Western Projects Were Started in His Office.

(BY A. P. HIGHT WIRE TO THE TIMES.)
WASHINGTON, May 13.—"Hurry up and complete the reclamation projects already under way and be sure you have competent men in the field," was the advice James J. Hill, the railroad magnate, gave to Secretary Lane today at the reclamation hearing.

He criticized the reclamation service more than twice what it cost other services and private enterprises to reclaim the desert land.

Mr. Hill based his statement as to the high cost of reclamation work on a report of the Census Bureau. Director Newell of the reclamation service and Senator Walsh of Montana questioned him about having personal knowledge of the reclamation service work.

"I never built an inch of irrigation works in my life," said Mr. Hill, "but I know that when private enterprise in Canada can sell the land and water for \$50 an acre, and the water on reclamation projects in the United States cost \$45 an acre, that there is some difference in the cost."

Director Newell replied that the government work was more permanent; that private enterprise was prone to take too large an acreage for the water capacity and further that the government could work only eight hours a day and private enterprise ten.

"That is another reason why the government should go out of the business," said Mr. Hill. He added that he was "burdened" with complaints by settlers on the Milk River and the St. Mary's project in Canada about the delay for years in pushing the work to completion. To this Mr. Newell responded that much of the delay had been caused by diplomatic negotiations with Great Britain over water rights.

HIS FINAL APPEAL
Mr. Hill concluded with an appeal for help for the settlers and prayer for Montana as a land adaptable to reclamation projects.

"You might reduce your freight rates; that would be one way to help them," suggested Mr. Lane.

"If we did so much further, we would have to ask for government credit," replied Mr. Hill.

During his testimony Mr. Hill said reclamation in the West "started in my office."

"Three railroads subscribed \$5000 each to build a great canal, the California named Maxwell, a rapid typewriter, to educate the people about reclamation," he said. "After three or four years the other railroads came in and before long we had the movement started."

MRS. WILSON ENTERTAINS.
Receives Large Number of Guests at Five O'clock Tea at the White House.

Peace Era.
TO ARBITRATE A CLAIM A DAY.

INTERNATIONAL TRIBUNAL SITS AT WASHINGTON.

United States and Great Britain Expected to Settle Several Hundred Cases Before Court, Which Convened Yesterday at National Capital—Frenchman Presides.

(BY A. P. HIGHT WIRE TO THE TIMES.)
WASHINGTON, May 13.—With Sir Cecil Spring-Rice, the British Ambassador, and John Bassett Moore, Counselor of the State Department, present to represent their respective governments, the international tribunal for the arbitration of outstanding pecuniary claims between the United States and Great Britain held its opening session here today.

Henri A. Fromageot, of France, president of the tribunal, made a brief address in which he spoke of the desirability of arbitration in settling disputes between nations and expressed the hope that all the deliberations of the new tribunal would lead to happy conclusions.

The court, Mr. Fromageot, Sir Charles Fitzpatrick, Chief Justice of Canada, and Chandler P. Anderson, former Counselor of the State Department, paid their respects to President Wilson and Secretary Bryan.

Efforts will be made to settle one case a day, so that the large number of cases on the schedule may be disposed of. As there are more than 200 cases on what is known as the "first schedule," cases which both governments have agreed shall be submitted to this judicial arbitration, it will take a year of working days to wipe the slate clear of this first list.

By the time that is done a second schedule probably will be ready. "We believe," said Mr. Anderson, "that the best way to prepare for the peace of the hundred years of celebration is to wipe out all claims between the two governments."

STEEL MAGNATE DEFENDS POLICY.

Denies Charge of Monopoly Made by Government.

Says It Has Raised Wages Many Millions Yearly.

How Independent Concern Controls Wire Market.

(BY A. P. HIGHT WIRE TO THE TIMES.)
NEW YORK, May 13.—The United States Steel Corporation was an industrial sector was the subject of the testimony of James A. Farrell, president, in the government's suit to dissolve the corporation under the Sherman anti-trust law. It was Mr. Farrell's second day on the stand for the defense.

He testified that the corporation had not controlled the wire market, but that it had been a competitor at cost when it came to corner the market.

Mr. Farrell gave a clean bill of health to the American Steel and Wire company, one of the subsidiaries of the corporation, which the government alleged is a monopoly in itself.

The hundreds of different kinds of products which the company manufactured, its percentage of production was less than half of the country's output and in one instance it was a called independent competitor as the manufacturer of as much as 70 per cent.

ANSWERS CHARGE.
Denying the charge that owing to the "community of interest" between the corporation and the steel corporations, the corporation was favored in buying cements in the United States, Mr. Farrell said that it was the policy of the corporation to buy cements from the steel mills nearest their plants, regardless of who owned the mills.

The steel corporation, he repeated, made every effort to push its foreign sales, while the corporation in the United States was able to obtain high prices for its export products.

Domestic consumers had grown used to the corporation's policy of buying cements from the steel mills nearest their plants, regardless of who owned the mills.

Naval Officials Are Somewhat Alarmed by the Case.
Service Men Unable to Find a Crew.

WASHINGTON BUREAU OF THE TIMES, May 13.—[Exclusive Dispatch.]—The theft of plans for warships from the Navy Department today, followed by the purloining of a document relating to the plans for a new type of submarine, has caused considerable alarm in the department.

NOTICE

The following ordinance was passed by the Los Angeles City Council, signed by the Mayor on April 11th, published on April 15th, and becomes a law in full force tomorrow, May 15th.

Section 1. Any person, firm or corporation, or any employee thereof, who shall in any newspaper, magazine, circular, form letter, or any open publication, published, distributed or circulated in the City of Los Angeles, or on any billboard, sign, card, label, or other advertising medium, or by means of any electric sign, window sign, show case display, or by any advertising device, or by public outcry, proclamation or conversation to or with a considerable number of persons, make or disseminate, or cause to be made or disseminated any statement or assertion of fact in relation to, modifying, explaining, or in any manner concerning any merchandise offered for sale, barter, or trade, or any services, professional or otherwise, offered to be furnished, which statement or assertion of fact takes the form of or has the appearance of, or which is intended to commend such merchandise or services to the public or to a considerable number of persons, and which statement or assertion is untrue in any respect or calculated to mislead or misinform, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punishable by a fine of not less than twenty-five dollars (\$25.00) nor more than five hundred dollars (\$500.00) or by imprisonment for a term not exceeding 180 days, or by both such fine and imprisonment.

We wish to go on record as being heartily in favor of this ordinance and in favor of its enforcement. In our own Ads we try to avoid any misrepresentations or any misleading statements. We do not claim to be sprouting wings or anything like that, but we believe that honesty is A1 business and always pays the best. We invite the public to scrutinize carefully all the Ads we run, and if any statements strike you as being misleading, we would appreciate it if you would call it to our attention. This being true, you may be sure that when we say that land at "ALFALFA ACRES" at the price of \$100 per acre is an A1 good buy, you can absolutely rely on it that we sincerely believe this to be true. We believe it so strongly that if you care to make the trip we will take you out, and if after looking over the land, you can honestly say that you do not believe it to be a good buy at \$100 per acre, we will pay your expenses.

FRESH MATERIAL FOR GRAND JURY.

CHARGES AGAINST DETECTIVES COME UP NOW.

White Slavery Inquiry Subordinated to Careful Investigation of Accusations Made by Italian Bureau Men Now Under Arrest in San Francisco.

Alleged graft in the police and detective departments will presumably be the subject of inquiry when the grand jury reconvenes this morning. The Assistant District Attorney declined yesterday to discuss the new line of investigation. "The grand jury works in secret," said he, "and I feel it would be violating the confidence of the grand jury to discuss the charges even remotely the supposed circumstances."

While the charges of the bureau men now under arrest in San Francisco name only Detective William Ingram, a man with a long and excellent record, the inquiry will take in a far wider scope, it is believed.

It is said that the grand jurors are anxious to know how Mrs. Rosenberg was able to conduct her resort on South Hill street without attracting the attention of the police.

Another phase is the activity of private detectives who may be asked to tell the grand jurors in whose interests they are working.

TO THE BOTTOM.

The circumstances surrounding the apparent reluctance of some of the force to interfere with the bureau men will be thoroughly aired. According to dispatches from San Francisco, Chief of Police Sebastian insists upon a thorough probe of the charges made against some of his men by the Italian confidence men. These men, it is stated by San Francisco detectives, have no connection with the gang to which Rial and Dr. Wilcox are supposed to belong.

Because of the importance of the charges preferred against members of the Los Angeles detective force, it is expected that the white slavery investigation will be subordinated to the other matter.

Police detectives announced yesterday that they are still looking for Mabel Johnson and a Miss St. Ives, both presumed to have conspired about vice conditions. The accusation of Kittle Phillips that she was forced to leave the city by private detectives may also be taken up if the grand jury considers it worth while to go into that phase of the Rixxy case.

Sebastian, Chief Trial Deputy for re-election to the Council, as was George W. Marston, a pioneer merchant for Mayor. Scandalous reports regarding Marston had been in circulation and Sebastian, taking up the cudgels for Marston, and tracing the reports back for several years in a letter to the Tribune, held them at the appearance of the letter in print. It was announced here that a heavy libel suit would be forthcoming.

Thompson asks for \$30,000 damages from each of the three defendants for the injury to his reputation, and \$10,000 punitive damages in each case.

SHAKE-UP COMING.

The graft charges and the exposure of unsavory conditions as regards the open disregard of the city ordinance regulating the sale of liquor on Sundays were conducive to a general unbecoming of interest at the Central Station yesterday. Everybody appeared to be wondering what is to

happen next, but no one would say the absence of Chief Sebastian, what will be the outcome.

There were rumors of a suspended business of the city, but no definite action was taken. The officers who have been mentioned in connection with the charges declined to say whether they were there with a full and complete knowledge of the charges against Chief Sebastian and his associates.

An investigation of a police officer at Zuccato's resort business was followed by the use of the word "autob" by the grand jurors. The investigation had been under way for some time and the grand jurors were now in a position to make a decision.

SAINTA MONICA. Santa Monica is the name of a city in California. It is a beautiful city with a long beach and a good harbor. It is a popular resort for people who like to live near the water.

NEWSPAPER. A newspaper is a publication that contains news, information, and entertainment. It is a vital part of a society and helps to keep people informed about what is going on in the world.

WANTED. A wanted poster is a notice that is placed in a public place to inform people that a person is being sought for arrest. It is often used by law enforcement agencies to find people who have committed crimes.

SALE of Corsets— New Summer Models!

—at the

J. W. Robinson Co.
Broadway and Third

Thursday!

THESE are the very newest of summer models—designed at the time summer fashions were being planned.

Corsets that give to every type of figure the fashionable summer silhouette.

And they're reduced—much reduced.

\$3.50

Is the Thursday Price!

\$5 to \$12

Is what they're actually worth!

Through a very unusual buying arrangement—the makers of the famous

Madame Irene Corsets

agreed to make for us this special lot of corsets. Although they are labeled the "Successor"—they have all of the unusual style points—the little differences in cut and boning—that make the Madame Irene, French Corset—so popular with fashion designers.

\$3.50 Thursday!

SALE of Gloves— Gloves of Summer Kids!

IN cream and white only—16-button, real French kid gloves—all sizes.

Are priced at \$2.75, instead of \$3.75.

And full pique sewn, real French kid gloves—two-clasped—in white only—all sizes—\$1.50, instead of \$2.

These sale gloves will be expertly fitted!

NEW Outing Tweeds— and Heather Mixtures!

SPENDILY wearable, non-musable. These make the smartest of outing suits, riding habits—divided skirts.

In the new shades of gray and tan—woven especially so that they "don't show every dust spot."

Priced as little as \$1.25 the yard—and then to \$3.50.

DAINTY, Sheer, New Muslins— Have been under-priced!

THESE are Under-muslins of sheer, yet wearable fabrics—and lace—embroidery trimmed.

There are combinations, princess slips and night gowns—marked to these unusual prices—95 cents, \$1.85 and \$1.95.

COMFORTS—and Blankets are cut—as to price!

ALL-WOOL, fine, silky blankets in a dainty plaid patterning—specially priced at \$5 and to \$8 the pair.

Comforts—Lamb's Wool filled and silk covered for a third less—some of them about half price.

SOCIETY AFFAIRS.

Miss Gertrude Workman.

Who is in charge of the May Day fete and carnival to be given at the famous old Workman home on Boyle Heights for the benefit of the Brownson House Settlement.

MISS GERTRUDE WORKMAN, well known in local amateur theatricals, will return this week-end from a short visit to Stanford University, where she has been attending commencement week. Festivities and gathering new ideas from the annual fraternity row carnival there for the Brownson House May fete and midway carnival, to be held at the famous old Workman home on Boyle Heights. Miss Workman is the guiding spirit in this enterprise for the benefit of the Brownson House Settlement and her trip north was for two reasons: to visit her old alma mater and her sorority sisters. In Delta Gamma there, and to obtain new ideas for the carnival at her home.

During her absence Miss Katherine Mullen has been in charge of arrangements and some spectacular things have been planned. The girls who are to take part are all busy making their costumes, so that at the end there will be no large costumer's bill cutting into the gross receipts and from the money for the new building. Some of the costumes promise to be decidedly original.

Coterie Club.
Mrs. C. E. Wenzel of Hollywood decorated her home in Scotch broom and carried out all her appointments in yellow, when she entertained the members of the Coterie Club. Luncheon was served at small tables, which were aglow with the California poppies and later auction bridge was played. Special guests present were Mrs. R. G. Bruh, H. A. Bingham.

May Day Festival.
The children of the St. Catherine's School for Girls entertained with a May Day festival in the garden of Mrs. Hooker's residence, No. 325 West Adams street. The school flower, the Cecile Brunner rose, was in profusion everywhere. Miss Margaret Johnson was Queen of the May, crowned in pink satin, with the girls of the school as train bearers. Light refreshments were served after the programme. Several hundred guests were included.

Informal Luncheon.
Mrs. Harrison Kimble of Baldwin Park recently entertained at her home, Westwood, with an informal luncheon in honor of Miss Alleen Stephens, who later became the bride of Justice Beach. The guests were Miss Edith Mathis, Miss Marie Bittleson, Miss Mabel Mathis, Miss Beatrice Baker, Miss Florence Baker and Miss Alleen Stephens.

Informal Luncheon.
Mrs. Frank Griffin, No. 2275 Cambridge, entertained informally last night with a rose luncheon. Cecile Brunner roses peeping out of masses

Dear Sirs:
It affords me great pleasure to testify to the merits of the MASON & HAMLIN PIANO. I consider them FAR SUPERIOR TO ANY PIANO I HAVE PLAYED. Their qualities are remarkable in all respects, thus placing them, in my opinion, IN THE LEAD of all other Pianos. Thanking you most heartily for the privilege of using your wonderful instruments, I am

Very sincerely yours,

ST. ANDREW BROTHERHOOD.
Diocesan Convention to Meet in St. Paul's Parish House Next Week, in Interest of Juniors.

The quarterly diocesan assembly of the Episcopal Brotherhood of St. Andrew will meet in St. Paul's Cathedral on next Tuesday. Twenty senior and ten junior chapters of the organization will be represented.

Acting on the presumption that "the boy is father to the man," and following the precedent of a year ago, the meeting will be largely devoted to the juniors and will be in charge of M. A. Albee, vice-president of the Diocesan Brotherhood. Addresses will be delivered by members of eight of the junior chapters, each of whom will report on the activities of his particular chapter, the speakers being picked to speak on particular problems of the work. Joseph Beattie of Hollywood, for instance, will speak on "The Brotherhood Boy and His Summer Vacation."

Following the opening of the convention by Richard B. Kirchhoffer, president, he will surrender the chair to Mr. Albee, who by virtue of his office has charge of the junior department. The president is a member of St. John's Chapter, this city, and the vice-president is a member of Christ Church Chapter, Redondo Beach, and was formerly active in the work at Berkeley. Bishop Johnson and Field Secretary Hadley will be speakers at the convention. All men and boys interested in the work of the brotherhood are invited to attend.

EASIER THAN WORKING.
Police Say Dairy Lunch Waiter Has Friend Tie Him Up and Rob the Place on Shores.

Proprietors of the Globe Dairy Lunch at No. 414 South Spring street became suspicious of the frequency with which cooks and waiters in their employ were being held up and robbed by highwaymen, and when Edward Gordon, a waiter, was found on the floor of the restaurant the other morning, with \$50 gone from the cash register, an investigation was made. Detectives Beaumont, Browning and Howe yesterday placed Gordon under arrest, and according to these officers, the pseudo-victim of highwaymen confessed to complicity in the plot.

According to the story said to have been told the detectives by Gordon, he planned with a friend to rifle the cash register and then be tied by the friend so as to make it appear that he had been attacked by a highwayman. The plan worked all right and Gordon, so he says, got \$20 of the \$50. He will be tried for complicity in the robbery.

CHANGES ITS NIGHT.
The members of the West Virginia Society will attend the "Mission Play" at San Gabriel, Friday night in a body instead of tomorrow night as originally planned and announced by the organization's secretary. The change was made because of a conflict with other plans. Reservations have been made for 100 former West Virginians.

THE NATURE FORM
Have your own accurate figure to see on—bring out your own artistic designs, the effects that you positively know will become you. Cut, fit and finish everything without once trying on your own figure. Convert, sewing, dress-making, etc., into real, genuine pleasure instead of the tedious work of twisting and turning to fit yourself alone.

—Gowns, shirtwaists, undergarments, etc., everything that you have previously supposed none but the professional seamstress could make, you can make with astonishing ease if you are sewing on an exact counterpart of yourself.

—If your seamstress is inefficient, you can immediately determine this fact by watching the progress she makes on you. The frequent expense of a dressmaker, and the continual purchase of many ready-made things that you yourself will enjoy making on your own figure, will soon pay you back the small purchase price you have paid for this dress-form.

—Collapsible for storing or travel—bust, arms, skirt and poles adjustable to any size or position—durable and light, composed of paper mache.

—In taking your order, but a few moments are required.

—If client resides at a distance, simple instructions are given for ordering by mail. —Demonstration and models Fifth Floor New Los Angeles Hotel, 317 So. Hill St.

Extra 10% Dividend to All
Stockholders—Are You One?

This is the most important appeal "Home Builders" has ever made to you—this offer of an extra 10 per cent stock dividend. This means that for every ten shares of stock you own or buy now you will get one share of stock free, ten shares on each hundred or one hundred shares on each thousand.

This is additional to the regular quarterly 3 months cash dividends. This will make your dividend earnings 16 1-3 per cent or better for the first year your money is with the company.

Listen: There Are Comparatively Few Shares of Stock Left to Sell at \$3, Price Will Go to \$31.5 Without Notice—Buy Now

On May 1st there were 80,067 shares set aside for sale at \$3. As soon as these are sold, the price will advance to \$31.5 without notice. Two-thirds of this has been allotted to our branch offices, leaving only 20,000 shares to be sold by this office. There is no time for delay. Act NOW. Get your subscriptions on file immediately.

farical sailor stories. Here is one
of the best of them, full of laughs and
absurd situations and whimsical char-
acters. Percy Warren plays the part
of Ned Travers, a young and impen-

the widow in the case.
There's actually in Warren's "Trav-

Music of a genuinely high order

Operatic Trio, a man and two women
who hold forth at the Empress Thea-

terrible of Italian opera. All have
good voices, which they handle with
taste, discretion and absolute knowl-
edge. As to what they are about,
Bertha Pia let her baritone, Rosalie

"lady" tenor. Miss Ford has a most
exceptional and unusual voice, and is
called as America's female Caruso.

Good art, though of an entirely dif-
ferent order, is also seen in "My
Lady's Fan," a series of lovely living
pictures in which six beautiful girls
(real ones) appear to be painted on
the canvas, and that you look at
them. Scenically this number is
exceedingly attractive—and the
puckishness of the girls is unques-
tionably great.

ST. DENIS WIRE TO THE TIMES:
SACRAMENTO, May 13.—(Exclu-
sive Dispatch.) Johnny Williams kept
pace with Bill Toser of the Angels, as
the leading pitcher of the league,
when he pitched the Sacramento
Wolves to a 7 to 3 victory in the
opening game of the series with Ho-
gan's Venice Tigers.

In the first frame Carlisle singled
to left, took second on Kane's sacri-
fice, and scored when Reysie drove a
fast one down the first base line
that took a wicked bounce off Ten-
nant's arm for a two-bagger.

In the sixth Bayless, Moran, Halli-
nan and Elliott connected for singles.
Bayless and Moran scoring.
In the first frame the Wolves tied
up the Tiger score. Shinn and Young
opened with singles. Moran sacri-
ficed both men ahead, and Elliott's
passed ball let Shinn across the rub-
ber.

In the second Leads walked and
doubled. Bliss drew a walk, and
while Harbison was admitting Blinn
on first, Leads made a clean steal of
third. Williams scored Leads with a
single to left.

With two men down in the third,
Tennant singled to left and stole sec-
ond. Kenworthy crashed one to deep
left, that rolled to the fence close
to the foot line, and Kenry made a
wild sprint around the circuit, bat-
ting the Carlisle-Hop relay by a few
feet for a home run. Tennant scored
ahead of him and the score board
showed the Wolves out in front, 4
to 1. In the fifth Moran repeated
Kenworthy's performance, driving the
horsehide to the center field corner
of the lot and rounding the paths
long before the relay reached the
plate.

Griffin succeeded Harbison on the
mound after the fifth, and although
Griff did not allow any more hitting,
the Wolves slipped over two more
runs. "Red" Kreitz went behind the
rubber to succeed Elliott, and two hit
batters rounded the bases for Sacra-
mento in the next two frames, and
by means on both ends of the Ven-
ice wrecking crew.

In the sixth Kenworthy was hit by
a pitched ball, went to third on
Lewis's sacrifice and an out by
Lewis, and scored on Griffin's wild
pitch. As Griffin was pitching to
Bliss, Kenworthy started a dash
dash for home, but it was a bluff and
he turned back as Griffin cut loose the
ball. But the bluff accomplished its
purpose. Griffin crossed his catcher's
signals in his anxiety to get the run-
ner, whom he thought was going
home, and the ball went away from
Kreitz. Kenworthy again turning and
crossing the plate with ease.

In the seventh Shinn was hit by a
pitched ball, took second on a sacri-
fice, and run play with Young, stole third
and continued to the plate for another
score when Kreitz overthrew third.

DOWN TO THE LIMIT.
Wolverton cut off two heads today
and now the Wolves are down to the
twenty-player limit without the neces-
sity of resorting to any suspension
techniques. Charley Swain, one-
time white hope, was sold outright to
Victoria of the Northwestern League.
Albert, the diminutive twirler who
came here from Ft. Wayne last year,
was turned over to Victoria with an
option on his return in case he shows
the form that Wolverton expects him
to show with a little seasoning. The

WINNERS OF LIMERICK
CONTEST ANNOUNCED.

AFTER infinite toil, many brain storms and much loss of sleep, the
Times Limerick Contest has at last been decided. Many mighty
brains have been enlisted in the work and the result has been
reached only after weeks of gigantic effort.
Alex B. Cartwright and H. C. Currie are the lucky winners of
season passes, and if these persons named will be kind enough to call
at the Sporting Desk of The Times Thursday afternoon, before baseball
time, we will hand out the season tickets, and may the next man who
suggests a limerick contest for baseball passes die before the thought
comes to maturity.

At least one or more million limericks were offered and it took
some little time to farm out the best ones. Of course, opinions may
differ, but the following have been selected because of meter and senti-
ment, that is, if the last word may be applied here.
Before springing the winning screeds, the little rhyme of H. D. Rose
of San Jacinto is to be mentioned in the honorable class. It goes like
this:

"Two close to the year two thousand and one,
And the baseball season had just begun,
When up to the home plate,
Without a hair on his pate,
Stepped old Cap Dillon and hit a home run."
Yes, this is fair.
Here are the winners:
Nine Angels while out on a lark
By chance wandered into the park,
Where Tigers ran wild—
But the Angels just smiled,
And walloped the beasts until dark.
ALEX. B. CARTWRIGHT.

6172 Marmion Way.
We are getting our minds all in kinks
As we read of the games in the Pinks,
For we don't know who'll grab
That alluring old flag.
It's a riddle as deep as the Sphinx.
H. G. CURRIE.

ANGELS BEAT BEAVERS
IN THRILLING BATTLE.

Jack Ryan Is in Rare Form, and Holds Portland to
One Run, Despite Five Errors Behind Him — Page
Drives in the Winning Run With Hard Wallop Over
Krueger—Krapp Wild, but Hard to Beat.

BY HARRY A. WILLIAMS.

PORTLAND may not win any
penants this year, but by grab-
bing they are hard to beat.
Any one of the 5000 fans who sat
shivering along into the gloaming
yesterday will swear to this.
The Angels won 2 to 1, but it took
thirteen innings and three hours and
thirteen minutes to turn the trick.
And since it happened in the year
1913, McCredie has a perfectly good
alibi if he wants to use it.

Billy Page was "the man of the
hour," which, to be exact, was 5:38
p.m. At that witching moment Mr.
Page caught a Krapp "spitter" on the
nose and belted it far over the edu-
cated dome of Herr Krueger. George
Metzger, on third, walked home with
the winning run, busting up the game
and shattering a tie that had pre-
vailed since the eighth inning, when a
"Snodgrass" of Rodgers' fly by Mills,
after a hard run, had permitted a
stranger by the name of Derrick to
make a souvenir of the home plate.

WAS REAL WALLOP.
To quote from that thrilling docu-
ment, the box score, "two were down
when the winning run scored."
Page's final remarks with the bat
were timely, clear and convincing. He
gave credit for nothing more than a
sneaky single, because Metzger was
on third, but I reckon the ball would
be going yet but for the center-field
fence.

Both sides had threatened to score
in the twelfth, but neither could
break through the barrier of the
matchless hand of Ryan and Krapp
pitching. The Beavers, in fact, even
went so far as to fill up the bases, only
to find a broad-shouldered Irishman
out there blocking the way.
The opening of the thirteenth found
a few hen-pecked gentlemen weigh-
ing anchor, but the great bulk of our
men folk, being brave and bold of
the homestead, stuck by the bleacher
and called aloud for the "hot dog"
man and a fresh supply of rations.

HOW IT HAPPENED.
Metzger shouldered a bat and made
his way to the plate through the gath-
ering gloom. Gene Krapp, his arm
limp from the day's work, walked the
Teton. When the opposing pitcher
passed the first man up, it was a mighty
good sign for the home team.
Dillon, who had been ignoring the
sacrifice since the fifth inning, decided
to return to the old stand-by, and told
Johnson to "lay one down." Ernie
was loath to part with one, but like
a good soldier, followed instructions,
and advanced Metzger with a tidy
bunt to Krapp.

Things were now ripe for a single,
but Boles couldn't cut the mustard,
Krapp moving him down at the plate.
Then the third strike came, young vet,
and splattered through Fisher's glove.
He made a hasty recovery, but Metz-
ger, already half way down the line,
struck third with his bat, throwing
Boles out at first. Ryan walked.

course. Then you just all ahead till you have used them up and die at gracefully, as peacefully, and as near to the eighteenth green as you decently can. On that spot you plant your tombstone bearing, an appropriate, witty or beautiful epitaph—according to temperament.

Yesterday afternoon so many fair players were wrapt in the throes of composition that it somewhat marred the pristine beauty of their golf. That is one reason why Mrs. Fulton won, she firmly declined to be an author.

other Riverside, wrote "Thank Heaven."

Mrs. Herbert Munn was pathetic and sportsmanlike with "Beneath this flag lies Charlotte Munn, who died before her goal was won. It was not due to lack of pluck, but—better player, better luck."

Mrs. C. A. Parley of San Gabriel was philosophic. "Here rest the hopes of Alberta Parley, compelled to quit the game so early. All ambitions sadly blasted. Well, twas jolly while it lasted."

Pretty Miss McCall likes couplets. "Let everyone witness the sad downfall, here lies the hopes of Georgia McCall."

That is but a few of the inspired lines that met one's bewildered gaze along the course. It was near the seventeenth green that graves were thickest—Mrs. J. V. Elliot finished in the cup, Mrs. Kearne within a foot of it, and Miss McCall in the bunker specially prepared for her. Everyone entered except Mrs. Williams, who had won her first round match in the morning against Kathleen Wright and decided to save her strength up for Mrs. J. V. Elliot today.

The Championship.

Mrs. Williams and Miss Wright had a splendid match and brought in medal scores of 55 and 58 respectively, the former only winning by 3 up and 1.

But Mrs. Williams has an even harder nut to crack today. Mrs. J. V. Elliot has recovered that deadly putting form of hers with a bang. She defeated Mrs. Kearne of Riverside by 4 up and 5, made the tenth hole in 2, and simply holed putts from off the green in masterly fashion throughout the match. Her brains work, she had all the old assurance—so the Coast champion will have to look to her laurels today. But Mrs. Williams is playing an excellent game—at good as the day she beat ex-national champion, Harley, in the Coast event, recently.

Miss Marion Clark won congratulations for the very excellent game she played to encompass the defeat

Vaudeville in Review.

(Continued from First Page.)

A unique and cleverly conceived vehicle for the acrobatic stunts of the Revue-Chimney Tris, a woman and two men who can twist, turn and contort. They are excellent actors, too, and their travesty on physical culture, entitled "Imagination," is well done from both the histrionic standpoint and the acrobatic.

Other acrobats whose work is nearly as artistically done are the two Claverton brothers, their particular prowess being shown in "Fun on the Revolving Ladder." Believe me, they have a really good time with that unsteady ladder—a good time fully shared by their gasping, shuddering and laughing audience.

Valentine Vox, Jr., one of the brightest of vaudeville comedians, comes on the stage in immaculate attire, bringing with him a number of whose facial expression is marvelously variable. Many of the jokes of Vox are new, and his manner has engaging poise and grace.

Here's a secret: Marie Russell, the belle of Kentucky, is not from Kentucky at all, but a girl from New York, who has been in the show for some time. She is a beautiful blonde, and her singing is of a high order.

The picture pictures present the latest of their farces.

Patricia's address most of the time, but now and again he becomes a terribly noisy neighbor.

Then "Pat" may be quite as appropriate a name for a one-act play as for a play in five acts. Therefore Christine Hill calls her brief tragedy of Little Italy by that sinister word, and her company of actors give it the work of a masterpiece.

"Pat" is wonderfully well written, well staged, well acted. The scene is a fruit shop in lower New York. The characters are Luigi, the fruit seller; Angelina, his wife; Antonio, the man who has just come from the city; and a double tragedy, the death of Luigi and Angelina, and a close call for Antonio and Angelina.

Miss Hill declares the story is true. Certainly, there are no false notes in her telling of it, not in the acting, not in the production, not in the play. It is like a little classic, the presentation is up to the play. In its way "Pat" is one of the most perfect productions ever put on in vaudeville, gripping and holding you from its first sentence to its last.

The make-up of Angelina, Antonio and Luigi are complete to the point of perfect illusion. This woman and these men are all Italian—they could not be taken for anything else. Their speech is the "Dago" dialect of New York. Their passions are those of Latin, whom centuries of civilization have not subdued.

But Miss Hill's fine playlet is not the only good thing at Patagonia. Clyde Rinaldo presents "Visions in Fairland," a series of moving pictures that enthrall by their glittering and colorful beauties. The musical accompaniment, composed by Robert W. Brown, is delightfully suggestive of all the pleasant sounds from Eliland.

Along the World.

WHITE SILENCE LAND DEPICTED.

ALASKAN SCENES PORTRAYED AT AUDITORIUM.

Dobbs' Original Film Show. Eskimo Life and Habits and White Man's Industrial Invasion of the Land of the Midnight Sun. Hunting Scenes Realistic.

BY HERBERT ALLIOT.

For those who are born in the Sun-Set Land and who have not developed a keen eye for the "White Silence," a genuine education.

Dobbs' original Alaskan pictures are now being shown at the Auditorium under that title.

Without exertion, inconvenience or danger one can travel from Seattle to Chagway, over the White Pass and down the Yukon, go sightseeing in Nome, visit Fairbanks on the way, and get glimpses of Lake Bennett and Circle City.

The more interesting, however, are the films picturing the habits of the Eskimos near Nome.

Recreation of fishing, hunting and other sports, and the friendly kiosk races are typical occupations of these simple folk.

In the natural pursuit of their primitive occupations as a background, the appearance of a school and of a curfew-headed missionary and his wife, followed by a host of native children blanketing the thorough exercise and a discordant note in the monotonous simplicity of aboriginal life.

In the following series the gold diggers are seen at work and the hydraulic pipes. It is, however, a pity that the "white effect" the "glits" at work were seen, not striding the bank with that impressive impact of tremendous force, but "feathering" like a woman on a woman's spring.

The Eskimo scenes are realistic and show the Eskimo life and the Eskimo people in a way that is not only interesting but also educational.

WORKOUT NEWS FROM EXPOSITION PARK TRACK.

BY GREG ORRIVER.

THAT good pacer Zomwooley, who gave the railbirds a scare Saturday by winning in 2:11 and 2:12, stepped several easy miles yesterday morning at Exposition Park, going one in 2:15, with the last half in 1:04 and the last quarter in :31.

The week, intending to race in the Iowa and Middle West circuits.

Rita McKinney and Piedmont Boy worked two miles yesterday in 2:14 and 2:14, with Rita having just a shade the best of both. Both of these are live ones.

Nothing like this back East until August.

That's the unanimous sentiment of the girls of the "Hanky Panky" company, who motored down to Venice yesterday and had a real old-fashioned romp on the beach and in the surf.

The Majestic never held a more appreciative audience than that which congregated free of charge on the sands to watch Lew Fields' feminine hopes enjoy their outing.

He looks like he will bring home the money this year and his owner, C. A. Holcomb, is to take four of his stable east in about a week to take a chance on the various good eastern tracks.

L. E. McEllan worked his Zombrout (2:04 1/2) a mile in 2:14 and another in 2:15 yesterday morning, with the last half in 1:04 and 1:05. This bird looks better than ever and is to be entered in the Coast circuit. He also worked the good little Ruby McKee two miles in 2:20 and 2:15, with the halves in 1:07 and 1:06, and the last quarters in :32. She looks like a second sweet Marie.

Joe Williams has commenced work on his good pacer, Audubon, and it need surprise no one if this one steps in 2:07 this summer. He has taken on weight and seems to be ready for the races.

E. A. Montgomery, whose string is being trained by Murphy, seems to be getting better and better. The others were warmed up yesterday morning and were full of speed.

R. L. English of Chico worked Cedric Mac and his Redie nity yesterday in miles around 2:20. He expects to ship to the East the latter part of the month.

THINKS WILLARD-SMITH MATCH WHOLE SHOW.

(BY FEDERAL WIRELESS LINE TO THE TIMES.) NEW YORK BUREAU OF THE TIMES, May 13.—[Special Dispatch.] Robert Edgar writing of the Gunboat-Smith-Jess Willard fight says:

This is by far the most important heavyweight bout in the cards. The McCarty-Pelky affair in Calgary may be tossed out. It's exciting about as much public interest as a struggle between a prairie and an apricot. McCarty outclasses Pelky too far to allow of its being called a contest.

But Willard and Smith will furnish fireworks, and the winner will surely have something interesting to say to the evasive McCarty.

If Gunboat Smith can put Willard off the championship track, the rest of the route should be easy for him. And if Willard knocks out Smith as easily as he did Kansas nobody can deny that he is the real "white hope."

SANTA MONICA AND LONG BEACH LEADERS.

There is a tie-up in the pennant race of the Southern division of the International Baseball League.

Santa Monica High's victory over Long Beach, puts the two beach high schools out in front in what is expected to be a dead heat. Long Beach won the championship for two seasons running, and again, it jumped into the lead early this year; but the Santa Monica boys followed a close second and overhauled the champions with ease, at the last meeting.

With the two teams tied, Santa Monica's position in the pennant race is a matter of some interest. Out of the eighteen games played by Santa Monica High this season, the nine has won sixteen.

KISSEL SIX IS TO BE STARTED.

A. B. Daniels Enters Second Car in Intercity Battle.

Thirty Motors Likely for Great Road Grind.

Starter Rues Has Something to Say of Position.

BY HENRY C. SMITH.

A. B. Daniels stepped politely into the limelight yesterday and entered the Kissel Kar. With the aid of E. Roger Stearns the deal was closed for the purchase of a six-cylinder Kissel racer, and Mickey Karna, one of the best mechanics in Los Angeles, was sent back to the Kissel factory to prepare that car.

E. Roger will drive as far as Bakersfield. That is understood in the deal. Daniels will not sit at the wheel during the race and will only figure on the road as manager and director of the contest. The Kissel is the second entry Daniels has made. He also has the Locomobile and with this pair of six-cylinders, the man from San Diego seems to be in line for at least a slice of the big prize.

The Kissel drew No. 23. This pleased Stearns, as he had planned to think the score number. The Locomobile is No. 13 and this pleases Daniels. When it was suggested to Daniels that he could drop No. 13, he was indignant, declaring he would prefer that number. His car will go into the race with the mystic No. 13, and if he has his way he will enter another car this week as No. 12.

Another prospective entrant for double honors is Gus Floerheim, who may start two cars. The Berlin Dye Works proprietor is anxiously scanning the lists each day and when the time comes he will be ready with a check. He says he prefers to enter two and possibly three cars in order to start with the same advantage as Daniels.

The private owners are making this race interesting. They have jumped into the forefront and now almost every entry is an owner who has no connection with a factory. This makes the Pasadena-Pacific Los Angeles-to-San Francisco race one of the greatest and most interesting contests ever staged.

HOW ABOUT IT? There is every reason to believe that the entry list will reach the thirty mark. With twenty cars in the race the contest looms into the front rank of all road races ever conducted. It is to be a grand prize speed battle with cars and drivers starting into the night on a grueling test, that will last at least thirteen hours from the time Bill Rues sends the cars away.

Starting at ten o'clock, the cars will be put up to the drivers at a meeting to be called later. Willie thinks the cars should be started by lot. The numbers should be drawn from a hat. Chairman Leon T. Shetter does not agree with Rues. Of course the cars should be started by lot. The numbers should be drawn from a hat. Chairman Leon T. Shetter does not agree with Rues. Of course the cars should be started by lot. The numbers should be drawn from a hat.

When it comes to a fair and square deal, it is perhaps only right that the contest should be decided by lot. However, if precedent has anything to do with the race, the cars will be started in the order in which the entries have been received. Steagor Rues has something to say and Smith is heard we must hold our peace.

There is not a better starter than this same William H. Rues, agent for the Pope-Hartford, winner of the Baldy road race, and a pilot with honors all his own. Let Rues be heard. He is an interesting one, and let no man condemn him without a hearing. Bill is always for the "under dog" and is in for fair play.

Rues is a starter who will make friends, at least with every driver, and that's what counts in a big race like the Los Angeles to San Francisco battle.

JOE TINKER HOPEFUL OVER REDS' CHANCES.

(BY FEDERAL WIRELESS LINE TO THE TIMES.) NEW YORK BUREAU OF THE TIMES, May 13.—[Special Dispatch.] Joe Tinker of the Reds is, of course, disappointed that his club has made so poor a showing, but it is still hopeful of whipping the club into first-division shape.

"The Giants look stale to me," says Joe, "and it was only their luck in pitchers that prevented us from taking four straight from them."

"If the Giants are not careful," continued Joe, "they will kid themselves out of the pennant just as the Cubs did two years ago and as the Athletics did last year."

STAND DOING NICELY.

BOSTON, May 13.—[By P. Night Wire.] Jake Stahl, manager of the Boston American League baseball team, is recovering rapidly from an operation performed upon one of his feet last week.

Physicians said today that he probably will be able to join the Red Sox team in Chicago the last of this week. It had been feared that he would be obliged to remain in Boston a month.

Place for the Wealthy.
April 24.—[To the Editor
of the Times:] As a constant
reader of the "Times" and in view of
the legislation "restricting the
rights of the citizen," I take the
opportunity of pointing out that my im-
portant California, particularly of
California, is that it was des-
tined to become a great home place
for the wealthy.

I am not losing sight of the fact
that the present success is due to its
agricultural and industrial
resources and that these will con-
tinue to form a great source of pro-
sperity. I also wish to emphasize
the fact that the State as a
whole is for the wealthy of the
world.

Emphasize Style as well as Quality

Young men who want style emphasis in their clothes will find it in these garments at \$15.00. The college or high school chap, the smart young business man and older man will find their styles too—the range of models is unusually large and there isn't a man in Los Angeles who can't be satisfactorily clothed at this price here.

In a measure we have concentrated our buying resources on this line—and we believe there never was more real intrinsic value put into clothes at \$15.00. You are invited to test our judgment in any way you please.

Public Service: City Hall, Courts

SUMMARY OF THE DAY.

The City Council deferred action yesterday for one week on light power and gas rates for the next fiscal year. Meanwhile the city will be heard, beginning today, before the Gas, Water and Light Committee.

A controversy has arisen again between the Harbor Commission and the Standard American Dredging Company over dredging at the harbor, and about \$25,000 due the company has been held.

The Police Commission held an all-day hearing yesterday over the application of a representative of the Senogram Company for a junk-dealer's permit. Charges that the attorney of Senogram has a "drag" with the police department and therefore the required reports of purchases were not necessary arose a stir.

The Griffin-avenue opening and widening scheme had another hearing before the City Council yesterday, and action was postponed for one week, while a petition for the proposed improvement is being checked by the City Engineer.

paper articles various times recently, and much of this old history was thrashed over at yesterday's hearing. Branding various persons as liars was a common occurrence during the hearing of the testimony, and there were several stormy scenes during the day.

The fire of the Mayor and the Police Commission was aroused by a statement that Senogram had told Bauman that his attorney, Gerech, had said that he, Gerech, had a "drag" with the police department, and was using this drag so that it was not necessary to make the usual reports on purchases. Gerech vigorously denied this, and declared that he had told Bauman that he had failed to file the required reports.

TROUBLE OVER DREDGING.

Upwards of \$25,000, due to the Standard American Dredging Company for dredging of the channels adjoining Municipal Wharf No. 1, is held up by the city, pending the completion of the dredging in Area A or the east basin before further work is carried on in Area C, on the eastern side of the municipal wharf and the Huntington fill.

Vice-President Guthrie of the dredging company and President Woodman of the Harbor Commission were in conference over this subject for several hours yesterday, in conjunction with City Engineer Harlan, Harbor Engineer Jubb and Special Counsel French.

The dredger that has been working in Area A has been moved to Area C, but the Harbor Commission insists that Area A must be completed before further work in Area C is undertaken. Guthrie explained that his company would effect a saving of about \$1000 by changing its course of work and that about two months' time would be saved. The president of the Harbor Commission would not recede from his position, as he alleges that the company is undertaking to get the government to pay for certain work that should be done for the city without cost. He insisted that the entire work in Area A must be completed before the company will be allowed to proceed with the dredging in Area C, and as an effective means of bringing this about the payment now due is withheld.

the city legislators have opportunity to devote to it their very best thought. This is the case through the presentation of a recommendation from the Public Welfare Committee that the Council adopt an ordinance prohibiting the staking of cows on vacant lots unless the permission of the lot owners was secured.

President Williams raised a protest, declaring that cows on lots kept down the obnoxious weeds and grass and were thus beneficial to the community. Councilman Whiffen opined that the staked cows were less of a nuisance than the cows. Councilman Andrews gave a philosophical dissertation on the disadvantages of the staked cow near a residence, even though said animal were on a vacant lot. He referred feelingly to flies, smells and other things. President Williams came back with the declaration that he knew that several of the Councilmen would stand with him, and after discussing the propriety of sending the subject back to a committee, it was carried over for one week.

City Hall Briefs.

The City Council yesterday's session instructed the City Attorney to prepare the ordinance of intention for the installation of an ornamental lighting system on Second street from Hill to San Pedro streets, this having been petitioned for by a majority of the street frontage on the property.

Under a suspension of the rules the City Council yesterday passed the ordinance providing for the acquisition of land at the northeast corner of Santa Monica boulevard and Madison street, for a branch library site.

The Board of Public Works was authorized by the City Council yesterday to proceed at once with building a launch for the use of harbor officials' business, the work to be done by force account.

A petition was presented to the City Council yesterday, asking that the name of Crown avenue be changed to Harvard boulevard, this street being practically a continuation of Harvard.
